## INTRODUCTION

**W**E have pleasure in submitting this catalogue showing a few examples of our manufactures, such as

CANOPIES, STAIRS,  
GATES, RAILINGS, Etc.

Our workmen are highly skilled in this class of work, and we undertake to erect in any part of the country.

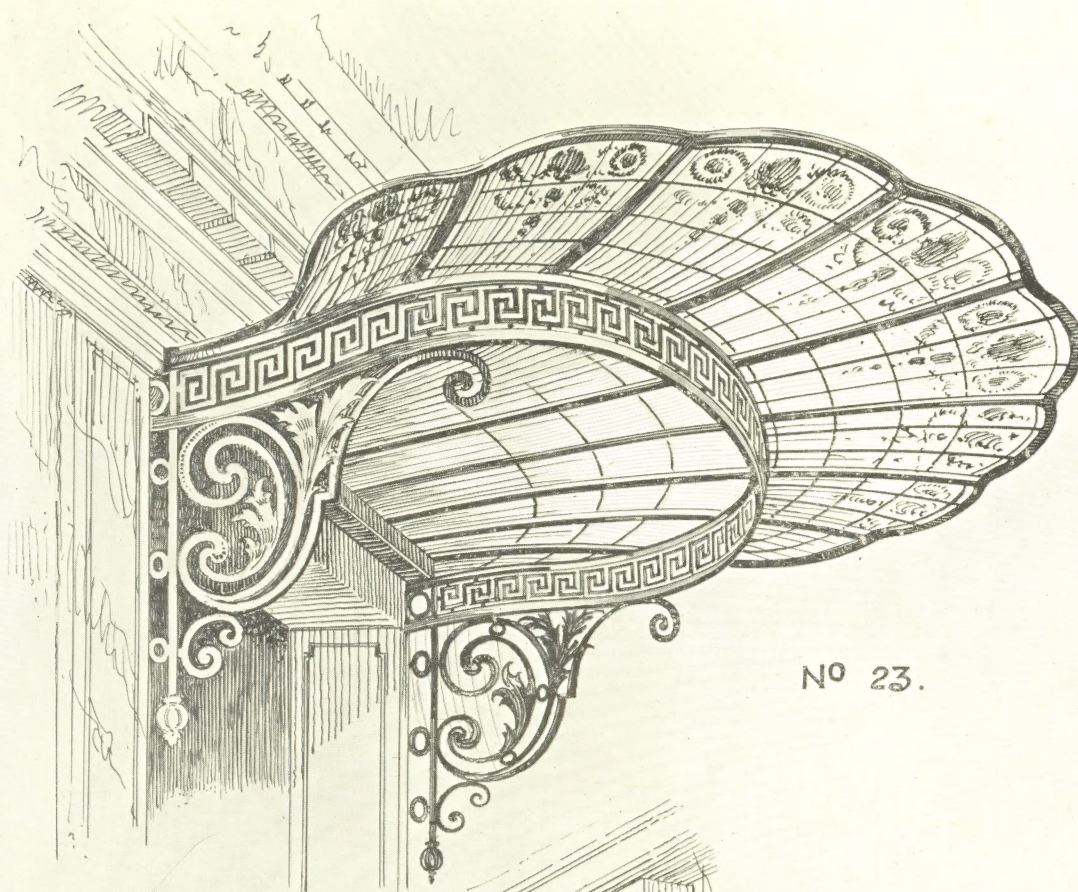

Where required, we take particulars at site and prepare designs, but where customers supply their own designs, they can be assured that these would receive careful consideration and be strictly adhered to.

As the cost of these structures generally depends largely on the varied conditions met with, we are always prepared to submit detailed quotations on receipt of particulars.
